

# Line Guard

Owners manual

## **DISCLAIMER:**

dEVIAN pRINT™ camera mounts **DO NOT** eliminate or substitute the use of a quick release/cutaway system on your helmet or gear, where dEVIAN pRINT™ products are installed.

By customer's request we develop mounts that can be fixed with screws to your equipment, but all dEVIAN pRINT™ camera mounts are sold with an option that requires no modification or tampering with your equipment (drilling, etc.). Such modifications may reduce the original protection effectiveness of the equipment for which it was designed, and are not promoted or supported by dEVIAN pRINT™.

dEVIAN pRINT™ helmet specific camera mounts should only be used on the helmet to which it was designed for. If a helmet specific mount is used on another helmet model, the end user is solely responsible for that decision, and dEVIAN pRINT™ will not accept any responsibility for that action.

At dEVIAN pRINT™ we promote safety above all else, and we design our products with that in mind.

If you have any suggestions on how to improve our products, all comments are welcomed!

## **Fittings and user instructions.**

### **A: Safety first – read carefully before installation!**

**IMPORTANT:** If you have any doubt about installing your dEVIAN pRINT™ product, immediately consult dEVIAN pRINT™ for advice.

#### **WARNINGS:**

- i.** The Line Guard should be used solely with GoPro® Hero 4 with the original case or Hero 5, 6 or 7 cameras with the original frame, to insure minimum clearance gaps between Line Guard and the camera.
- ii.** Replace the Line Guard if visible wear or damage is noticeable, to insure maximum safety.
- iii.** Regularly check the integrity and materials of the Line Guard. If in doubt, do not use it and consult dEVIAN pRINT™.
- iv.** Do not submit the Line Guard to long exposures to sunlight. ABS plastics durability is severely affected to sunlight exposure.
- v.** dEVIAN pRINT™ will accept no liability for the damage in parts which have been poorly handled or subjected to ill treatment by users.
- vi.** dEVIAN pRINT™ will accept no liability for the consequences of drilling, or any other type of modifications to your equipment, with the purpose to install the Line Guard, or any other product manufactured or sold by dEVIAN pRINT™.

## B: Parts list

When unboxing, please check that the following items are included in the kit:

- 1 x Line Guard
- 1 x M5x30 screw
- 1 x M5 nut
- 2 x M4x15 screws
- 2 x M4 nuts
- 2 x washers

**Tools needed:** Slotted Screwdriver 

## C: Fitting instructions

The Line Guard has 2 mounting options:

1. Screws and neoprene single sided adhesive tape.
2. VHB double sided adhesive tape, so you don't have to drill your helmet.

### Option 1: Screws and Neoprene tape

Use the features of the helmet to find its center

Mark the center of the helmet with a line

3) Open the visor and mark the upper limit to find the position where the LG doesn't interfere with it when it is open.

Align the center marks with the center line drawn on the helmet

Mark the holes positions on the helmet

Drill the holes on the helmet

Fix the LG with screws from inside the helmet

### Option 2: VHB adhesive tape

Apply steps 1 and 2 from option 1, and clean the mounting area with detergent to remove any grease.

Align the holes with the center line and remove the protective paper from the VHB adhesive tape

Glue the mount on to the helmet and press firmly to ensure maximum adherence

Mount the camera on to the Line Guard, adjust its angle, and tighten the side screw firmly to hold it in place.

## Adjusting GoPro angle

The camera position can vary between 60 degrees backward and 70 degrees forward, approximately.

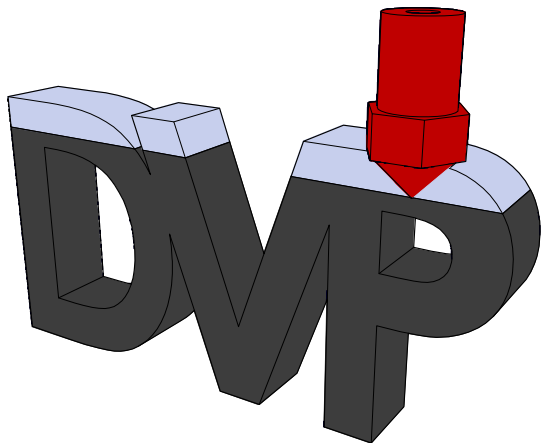

## Accessing the GoPro camera

The frame can be opened for camera access without having to remove the frame from the Line Guard.

## Reversing GoPro direction

You can reverse the GoPro Hero direction without having to remove the Line Guard from your equipment.
